**Tools Required:**

<ul style="list-style-type: none"><li>4mm Allen Key</li></ul>	
---	--

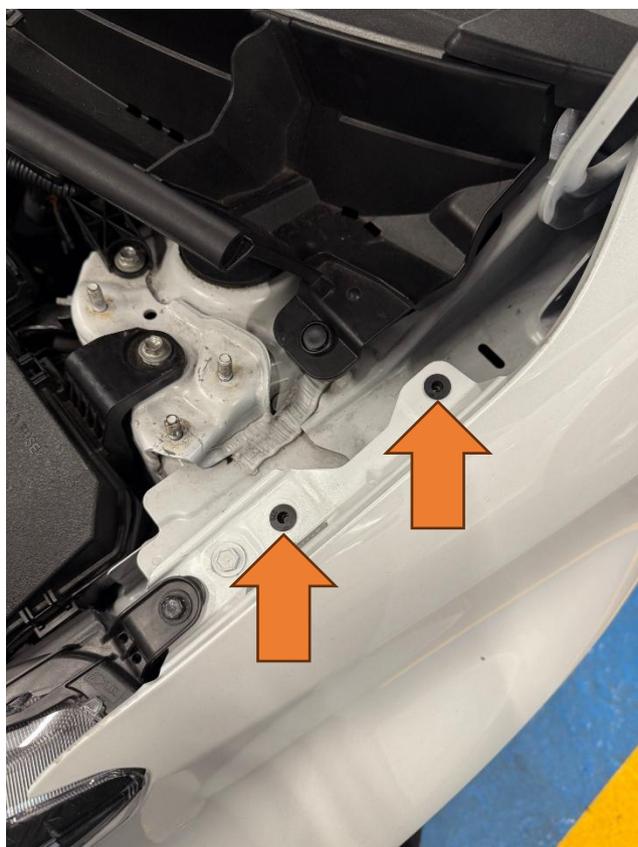

**PLEASE THOROUGHLY READ THESE INSTRUCTIONS AND MAKE SURE YOU ARE FAMILIAR WITH THE STEPS BEFORE CARRYING THEM OUT**

# Instructions:

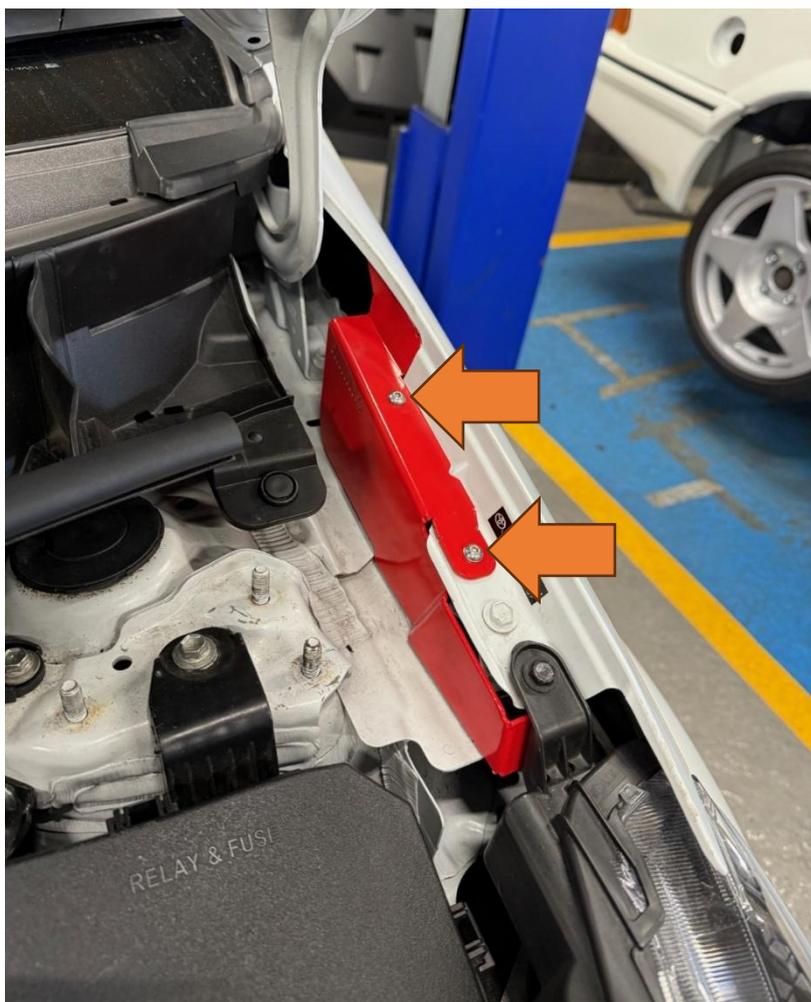

1. First, remove the Toyota rubber foam insert from the top of the front wings. Pull carefully as these can rip with too much force.

2. Next, insert the two M5 rubber Rivnuts supplied in the kit into the holes on top of the wings, as shown.

- Now, fit the covers in place and secure with the two M5 bolts and washers provided, as shown. **Please note:** the rubber Rivnuts require minimal force when tightening.

- Finally, repeat for the other side and make sure everything is secure.
