---------------	--------------

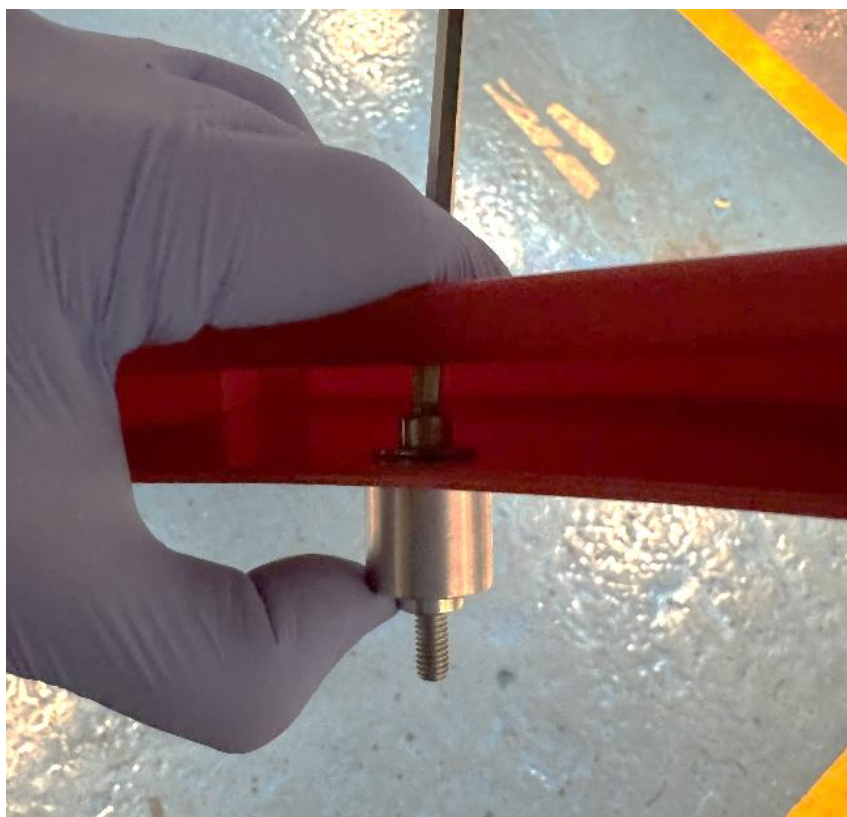

**PLEASE THOROUGHLY READ THESE INSTRUCTIONS AND MAKE SURE YOU ARE FAMILIAR WITH THE STEPS BEFORE CARRYING THEM OUT**

# Instructions:

1. Working under the car, start by locating the single bolt in the left-hand side plastic floor guard panel in front of the rear axle and remove it.

2. Install the longer bolt supplied in the kit through and then the washer as shown with the spacer in the orientation shown.

3. Fit it onto the vehicle tightening by just a few turns allowing you to rotate the scoop to line it up with the rear attachment point.

4. Finally, install the long M6 bolt and washer through the scoop and secure in place using the remaining washer and nut supplied in the kit.
