

Vehicle:	Ford Fiesta Mk8 / 8.5 incl. ST
Product:	Torque Mount
Part number:	ATMSFO82 / ATMSFO147

Please note: When fitting, ensure the washer/spacer supplied in the kit is fitted between the top hat part and the bushing so that there is no notable gap on either side of the bushing.

This should ensure that the torque mount pushes and pulls in a straight direction and not at an angle.
